# Digital Camera GittCard®

OWNER'S MANUAL

### **FCC NOTE**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- --Reorient or relocate the receiving antenna.
- --Increase the separation between the equipment and receiver.
- --Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

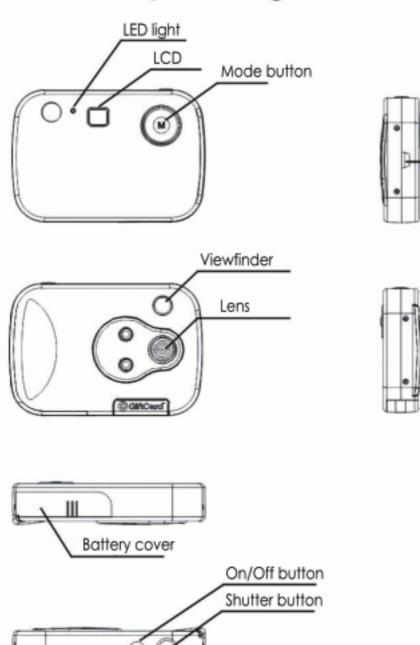

#### FCC Caution:

The manufacturer is not responsible for and radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

# INTRODUCTION

# Getting to know your Digital Camera GiftCard™

USB connector

## **GETTING STARTED**

#### INSTALLING BATTERIES

This camera requires two AAA alkaline batteries (not included). The battery compartment is located at the bottom of the camera.

- Slide the battery compartment door open.
- Place batteries inside, observing correct polarity.
- Slide the battery compartment door closed.

**Note:** Be sure to always download your images to the computer before removing or replacing batteries, as stored images will be permanently lost. If the camera is connected to the computer via the USB cable, the camera can run on power provided by the computer. Please do not open the battery compartment or remove the batteries until photos have been downloaded. If the camera will not be used for a long period of time, please remember to download your pictures and remove the batteries.

#### CAUTION:

Do not mix old and new batteries.

Do not expose batteries to flame or fire.

Please dispose of batteries safely.
